## Full Speaker Bio

---

Matthew Michini is the author of "Dad: The Original Hero: Answering The Call with Tools & Frameworks for Respect & Leadership at Home." A wealth management advisor, ministry leader, and founder of Radiant Business Leaders, Matthew brings a rare combination of business acumen, faith, and raw personal experience to the conversation about fatherhood.

His book is based on over 40 interviews with pastors, psychologists, marriage counselors, and business leaders — and written from the trenches of real fatherhood, not the mountaintop. Matthew's core message is direct: fathers are not the problem. They are the solution. What they do every day — showing up, caring, being present — matters more than they realize. And it is bigger than them. It is a divine calling.

A defining moment in Matthew's fatherhood journey came when he discovered his daughter has autism. He had to be strong for his wife while grieving privately — and through that challenge, he found his purpose. He now speaks and writes to help fathers see that their hardest seasons are often where God reveals their divine assignment.

Matthew lives by a conviction he shares with every audience: "You can only control your actions and your attitudes. Nothing of great importance is ever done in comfort. You were built for more."
